

PUPP NEWSLETTER

February 2020

We had 13 adoptions in February and these dogs were trained in PUPP.

Sadie (fka Keller) smiling with Mom.

Major had a birthday celebration. He is adjusting great and everyone who meets him loves him.

Miles is doing great. 😊 He's near perfect with me, but we still have a ways to go with my kids... he's gradually becoming warmer with them, though. Very happy he's part of our family!!

We love this little rascal, Joker. It's been wonderful to watch him become comfortable at home and feel like he's part of the family. He put on a little weight, so we are watching that. He's very healthy, much more calm in every way, and really settling into a routine. He got a second bed recently so now he has one upstairs and downstairs. Thanks for checking in, you guys are thoughtful and clearly good at looking out for these rescue dogs. This one is enjoying being spoiled, and we are just about to go on a nice long walk, so I'll expect a wagging tail shortly!

Tod, now Winter, became an uncle to a human nephew who he gets to help babysit during the week. It's going well so far and he seems to love the baby!

Gunner stopped in at the painting event to say "hey!"

Cain's first day going to day care and looks like he's saying "but Mom, will I like it?"

Cain and his foster sister looking very happy.

Penny was adopted and is still timid but adjusting to her new home. She loves her morning walks and claiming the blankets on the couch. Belly rubs are always appreciated too!

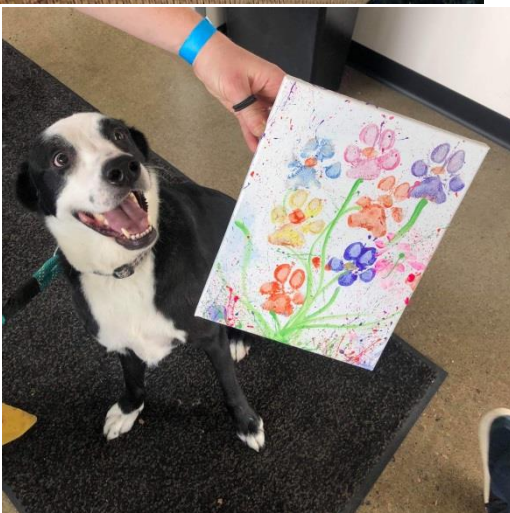

Farley and his new brother really like each other.

We're the 2 best friends that anyone could have

Misha and her new brother could be a great sled dog team!

Who knew Wynn was so artistic?

So happy to hear Misha and her brother are great friends.
