

PUPP NEWSLETTER

May 2020

We had 27 adoptions in May and these dogs were trained in PUPP.

Bennie is much loved.

Vicki is the best thing ever!! So sweet and loving, she is much more than we expected such a comfort! She has really come out of her shell and let her personality shine! She loves to go on walks, which we do regularly now that we are at home. I am so glad we reached out to Purebred Rescue to get a little dog! We are so happy together, thank you again!

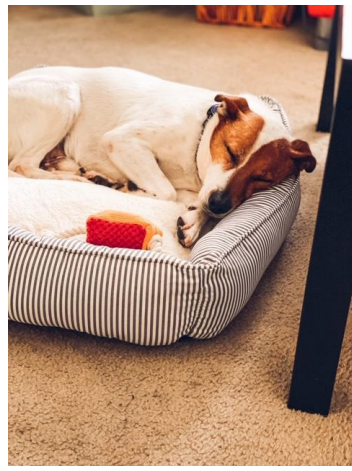

Cammi home.

Teddy, lighter one on bottom, occasionally goes to daycare with his "nephew" Toby and they play ALL day together

Harper Lee doesn't have to live outside anymore.

Toby is an absolute dream dog. We love him! He's retained a lot of his training, and is very polite. We're excited to keep him forever!

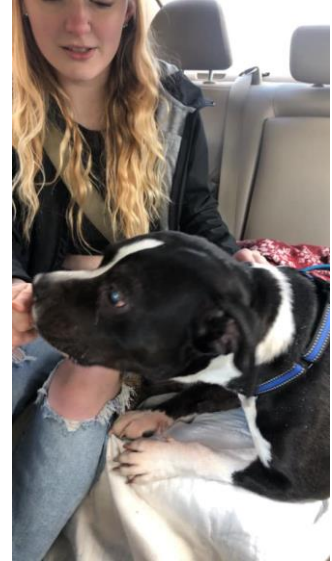

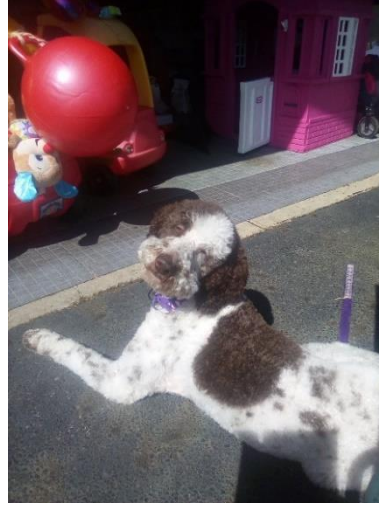

I adopted a dog through PRO that was part of your prison training program (she was formerly known as Sazzy). I believe this program is great in that it gives these often neglected dogs a chance to find new homes and new beginnings. Thank you for your work.

Gia explores the yard. She will need lifetime meds and special food for her problems.

Chase on adoption day!

Bella stands guard during bath time.

Cooper is an excellent guard dog!

I just wanted to send a shout out to Purebred Rescue. Last week we welcomed Titan into our home to be in his forever home. He is truly an amazing dog. He loves going on walks with his fur baby big sister and his humans. We love him so so much and we are so glad he got to come home with us.

Penny is doing really well! She loves walking in morning. Does bunny bouncing, really cute. She pulls on the leash sometimes. But I call her name, sometimes more than once, she will stop. Overall, she's been a great addition. Thanks so much for my little girl!

After Axel received some additional training to deter fencing jumping, he found a home.

Rosa is living with an active couple who loves to hike.

Yumi loves spinning for her new family.
