

## PUPP Newsletter June 2018

Stanley is in his new home, an older couple with a beautiful fenced back yard. Their previous beagle died so they love the breed and Stanley is about the energy level they were looking for. They will take good care of him.

Paulie has a home with lots of buddies to play with 4 humans and 3 canines. Sometimes it takes a while to find the right home so let's hope this is the one. Adopters are getting him vetted to see what the lump is on his leg, and to get the colitis and allergies under control. He is extremely happy in this home and getting lots of love.

Lucy seemed to like her new parents right away. For some reason I think she might become a Daddy's girl. She will have a dachshund sister and a cat in the family. I was a little worried after I put her in a cage in the front seat to transport her because she turned into Cujo. But I opened the door and she climbed onto my lap and was fine.

Maxwell has found a home with a playmate. The little dog in the middle and Maxwell started playing as soon as they got home. Mom and Dad were looking for a playmate so they are thrilled with him. All their dogs are rescued ones.

Scarlett, now known as Hana, is enjoying life as a laundry “helper” with her new family! In addition to helping with the laundry, her new family says she has already mastered the art of opening doors around their house. Sounds like she’ll be keeping them on their toes for many years to come!

Suzie certainly appreciates being the only dog in the home. She is being pampered and loving every minute of it. Owners recently told us Suzy has Lyme disease from a tick bite and will have to be on antibiotics for weeks. She also has dermatitis on her body that needs treatment.

Bobby now has a home with a fenced yard and a Mom who has owned dachshunds in the past. “Slim Jim-like” treats before a car ride make for stinky puke in the car, guys. You know who you are – lol! Bobby doesn’t even chew his food.
