

# PUPP NEWSLETTER

June 2020

We had 13 adoptions in June and these dogs were trained in PUPP.

Barley played outside with the big dogs today!

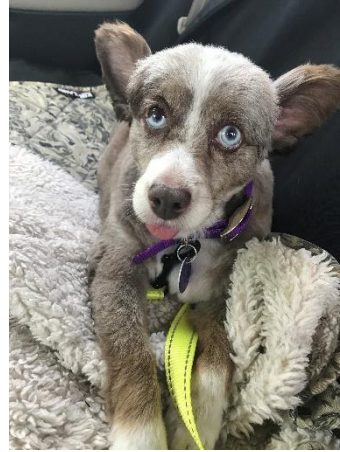

Zelda, Miley and Alvin participated in an assisted living home visit, since the patients are unable to see their families.

Sheba at home relaxing.

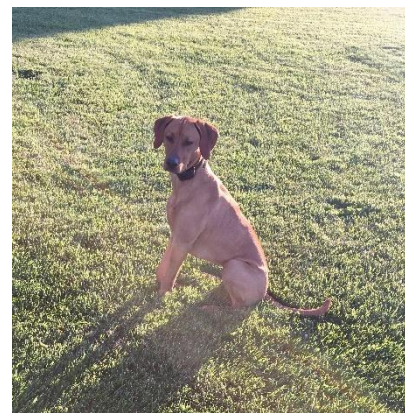

Titan is finally heartworm negative!

Lola gets to be the only dog in her new home!

Demi gets all the attention from a previous two-time adopter.

Harley and Winston have the best time playing together! Today she was having a good time digging in the sand volleyball court! She's been to see the vet who thought she was such a beautiful dog! She also had nice things to say about your organization. It's going to be a fun summer with these two!
