## JULY 2019

**We had 13 adoptions in July and these dogs were trained in the PUPP program.**

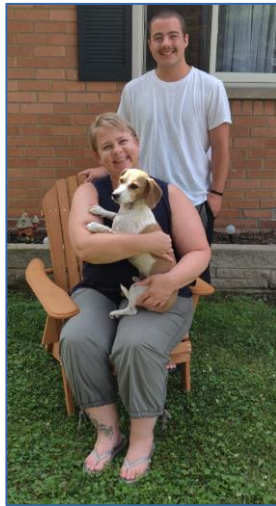

Everything is going so well with West!! He has settled in quickly. He's getting very playful, but also loves to just snuggle with the kids! And he met the hamster!

Just wanted to share that West has done AMAZING on his first family vacation! He never got sick on our 6-hour road trip (no drooling either, totally chill), he has done great with the family dogs and humans we've stayed with, and he is enjoying his first beach experience. He's the best!!!"

Tod and his Mom. Looks like he's smiling.

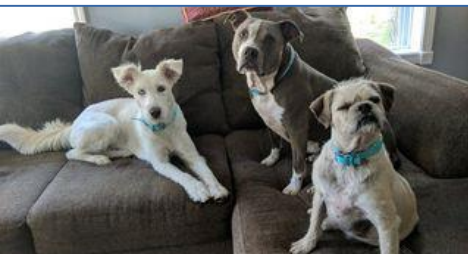

Dexter moved to a new family.

One year since you guys changed my life and picked me to adopt Scottie!!!!

Maisy is a very sweet dog, very attached to Lindsay and enjoys playing with my son's dog. She enjoys the time we spend at our cabin in Hocking Hills. Lots of interesting smells.

Bowie joined a home with a previous adopter who adopted Boris (on the right) from PRO.

Clyde and his brothers!

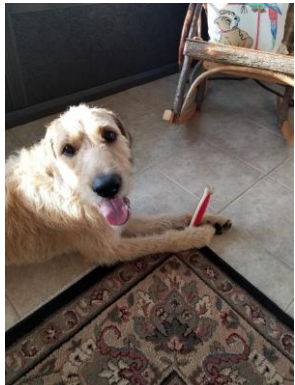

Chase and friends

Frankie posing for a photo op

Jude settled in and did really well last night. I'm guessing that because of being in prison for 9 weeks, he knows that lights out means quiet/sleep time. He is responding well to my commands, except when we were in the backyard when he was overly excited exploring his new space and smells. His trainer told me he loves squeaker toys, and that really worked to get his attention. This morning we went to Petsmart and broke the bank on food, collar, cage, toys, treats, etc.. He is a spoiled pup. He does not like being alone at all, and trainer said separation anxiety is a problem for him. This is something we will really be working on. I had to come to work this afternoon, so he is at his "second home" and spending time with his Grandma and Grandpa, who love him too. I renamed him.....Otis. My grandpa worked for Otis Elevator, and one of my fav shows is Andy Griffith. On that show the character, Otis, is constantly in and out of jail which seemed fitting.

Thelma has decided Rich is "her person". And she likes to pretend she can't jump up on our couch, but if we're outside or in another room she's up on the coffee table and the only way she can get on the couch is by way of the couch. She's a sneaky little devil. But adorable just the same!

Darby was adopted by her foster family and has plenty of playmates.

Carter is great! We actually just left him for a few days to go the beach and he was sooo glad to see us come home! Even though my daughter and her family stayed at our house, he really seemed to miss us. We still walk our 3 miles every day that we can! I work close enough to stop in at lunch sometimes too. We have really bonded; I cried when we left him for the beach. Thanks for checking in! He's been great, especially for me!

Sadie (fka Keller, white deaf Dogo Argentina). We adopted her over year ago. Just wanted to give an update to you and the inmate. First thanks to both! We have the sweetest most precious dog ever. She is so loved and can't imagine life without her. She has cut down on doggie daycare just because she is older and good with going to her kennel during the day. She still "chomps" at you if she isn't getting what she wants. (And she usually does). She gets a bark box every month with new toys and treats. Her sister and brother like this too. She has a life on the farm as we now own 14 Texas Longhorns. Sadie goes to greet them ever day and will lay and watch. So sweet.
