Adopter wrote: Sally is truly the best dog ever. She steals everyone's heart. She loves going for walks every day. Lately we have been going early in the morning and when the sun goes down. When she sees her leash she shakes with excitement. She has a harness that looks like a dress. So adorable. She sleeps in her bed every night. She also goes there when we are not home. She loves small children and is the cutest dog ever. She only barks when she is excited. Totally adorable. We are so blessed to have her. She goes with us everywhere we are able to take her. She has been to Lowes many times due to they allow dogs. I will attach some pics. I am thinking about starting an Instagram page for her. I wanted you to know she is spoiled rotten and she is doing very well. She has put on at least a pound or two.

Shelby has a grandma now.

It's really hard to photograph a fast back dog. In 75% of the pictures he's just a black blob. :) He really seems to love our jungle of a back yard. It's so fun to watch him chasing butterflies, moths, bird and squirrels. Not to mention his crazy runs around the perimeter. We love him very much and thank you all from the bottom of our hearts. Also please thank Jett's handler at the prison. I can tell that he really cared about Jett and hope that he knows that we will do our best to make sure that Jett continues to have a wonderful life. Please make sure he knows that this little puppy has brought so much happiness to me and my family in the few hours that we have been with him. We will be forever grateful to Purebred Rescue, the prison and his handler.

Paulie had a biopsy on his leg and it is benign – just a fatty lipoma. He is on allergy medicine and they are crazy about him. He plays with 2 dogs and 2 kids. He has gained weight and his coat is much better.

A blast from the past! Who could forget the 11 puppies. I've asked for pictures and will include when/if I receive them.

Westin
all
grown
up.

Luxor – they kept the name.

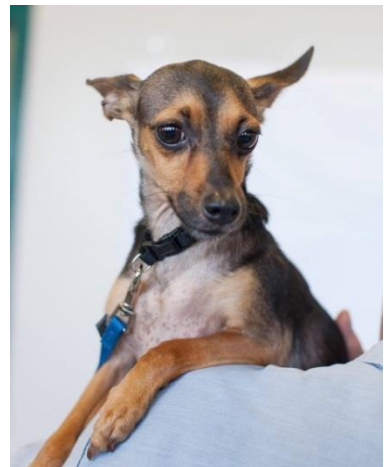

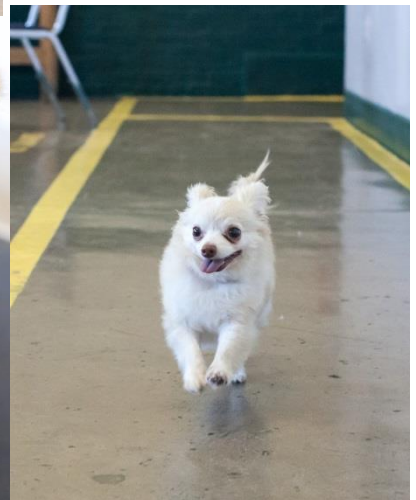

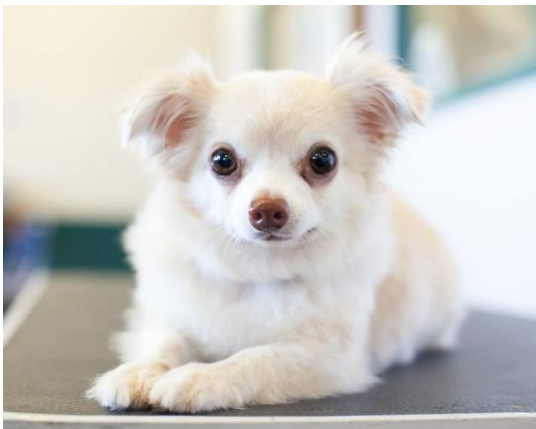

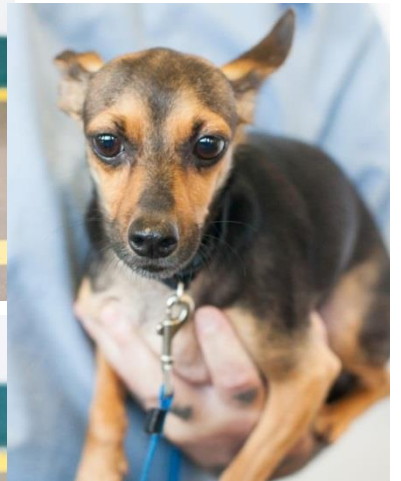

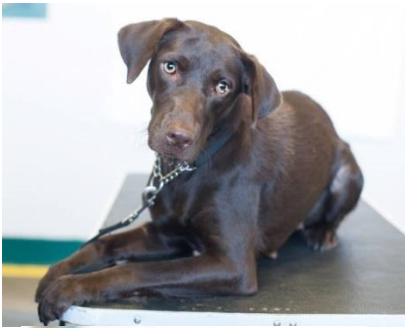

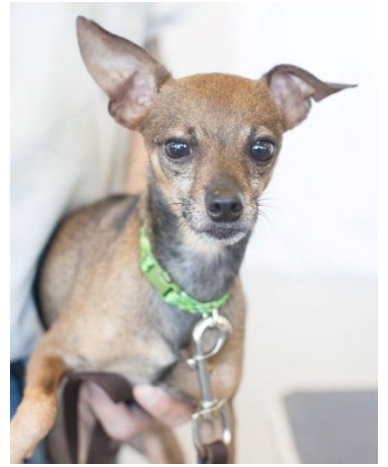

Wynn is the best dog and addition to our home that I could have asked for. Please tell the inmate who took care of him how thankful I am to him for being Wynn's foster dad and trainer. Wynn is best friends with my cat, and loves to play with us or other dogs. He's a bit of a weenie, especially when it comes to boxes or loud noises, but he's such a happy guy. He's such a good dog and, except for still learning not to jump when he's excited, really has no bad behaviors now that he's through his chewing/puppy stage. His favorite things are: watching/chasing birds, running with other dogs, playing fetch, swimming and snuggling on the couch. He hates: loud noises, being ignored while you're holding the ball, rain.

Maui (formally Monte Carlo) has made a wonderful addition to our family! He joined a family of four (humans) and one other dog. Maui is super loving, energetic and playful. He is great with all people and other dogs. Maui loves being on the go with long walks, or even couple mile runs, but also doesn't pass up a chance to sneak up on furniture and cuddle :)

Riviera (on the left) is owned by our photographer. They recently added the middle dog who was in rescue too.

We love Nellie she fits right in to our lives and my patients love her. The inmates Price and Ferman really pored there hearts into her training. She just fits right into the family as if she's always been meant to be here. Thank you Purebred Rescue."

Alvin and KeeKee lived in the same home before they were surrendered and are reunited! Sammy is in my home as a foster and still looking for an owner.

Adopter sent us another picture of Reno

Little Scooter is in a home now. He loves other dogs.

From Adopter: Maggie's adjustment has been slow but she is getting better each day. She is still afraid of people and terrified to ride in a car. She finally has started to enjoy walking and has made some positive friends with other dogs but not their owners. She has been out front off leash with Sophie (Linda's dog) and shows no signs of running away so that is good. We still have a long way to go but I'm working on it!
