October 2018

Hi, I've been meaning to write. Gavin has turned into a loving angel. We got this new trainer and tried the collar which gives him a shock. It took about one session, and we don't need to use it. He will drop things he shouldn't have gotten (like stuffed cushions, toys, clothes — which he previously destroyed. I have a new ragbag! On the other hand, my husband appreciates the uncluttered look.) We have had as many as twenty people over and he is a lover. He loves women, sits at their feet. Bob says he adores me, he always sits by me, follows me — it's just a joy and what a change in just over six months. But we owe a lot to our trainer. We are so glad you rescued him and that we found you. Your help with getting the right trainer was invaluable. I'll get a picture taken and send it to you. I feel like we and you are kind of "family" now!

Roxi's adopter was kind enough to forward some current photos. She is doing well.

Gizzy (nka Izzy) has a new home adopted by foster mom and sister. They love each other!

Hi, sorry this took so long to get to you. It's been a busy weekend. I think we also decided to change Zeke's name to Ozzy Pawsbourne, lol. He has been doing really well and has been a great addition to our family. We are so happy he is here!

Buckeye was adopted into a home where he will be going to school with his Mom. They took him to a tailgate party recently and people loved him and wanted his picture. He is going to enjoy his new, active life.

Ear problems will probably follow Marshall, but at least he has loving parents with an acre fenced yard! They have had cocker spaniels before and know what to do.

Prince went a little crazy a few times after he was moved, but settled in at his foster home. Now he is enjoying his new life with adopters.

Tia met her retired couple grand parents who have an acre fenced yard. She is looking forward to many walks and relaxing moments.

They have had several beagles in the past and love them.

Sad News Update

Bo, the black lab mix, died suddenly from a tumor on his spleen. He was in a home where he knew he was loved at the time.

Ryker passed away recently from a brain tumor. He was a perfect companion for his Mom.

Tetra celebrated Halloween as a cow in her foster home.

Tyson is totally humiliated by his new mom's choice of costume.

Pierce has received his driver's license and is cruising for fun.

Kiefer has been fabulous..... I am so pleased..... I read what inmate Gill wrote.... he did a fabulous job.... Kiefer is well mannered.... I am thrilled with him.

Teddy and Simon lucked out big time. Their foster mom fell in love with them and adopted them together. That was our plan all along!

Arlo's doing amazing! He has some anxiety issues that we are working through. Not sure what exactly happened to him in his past, but we are working it out with him. Basically he doesn't like to be alone. As if we are going somewhere we can't take him, he doesn't like it. We are just in love with him, as he is us!! He has learned new things and doesn't dart out of the house; he listens to the commands. He knows when I'm having bad days with my MS & Fibromyalgia. On those days, he just lays with me and is so chill; he's just what I needed!! He plays with my daughter when he feels like playing, then lays with me when he's ready to just relax and be lazy (which is most of the time, lol). He fully enjoys his night time muscle & joint massage before bedtime, his huge box of toys, all his yummy treats and no-odor bully sticks. He is extremely loved, spoiled, very content, & we couldn't be happier!! Thank you and your Foundation for all it does!! Without it, we may have never found such an amazing dog! We feel very blessed!
