## March 2022

We had another great month of the program and are thrilled to welcome some new handlers! We appreciate how much you all support each other and work as a team to ensure the best possible outcome for all of our dogs. We have a lot of exciting plans this year and look forward to many more “happy tails”!

Queenie is doing great in her adoptive home! “She is definitely taking a while to adjust but every day she is showing growth and settling in more and more. I feel so lucky to have her! She loves to cuddle. My husband works from home and she wants to sit in his lap all day!”

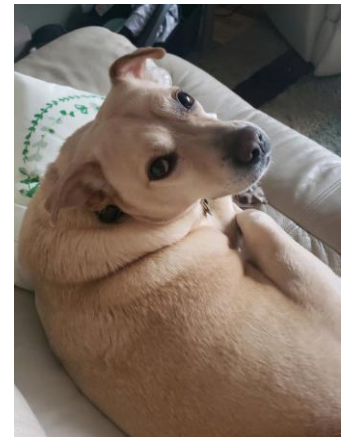

Peggie is loving life with her new siblings! She has had one knee repaired and the other one is TBD sometime down the road (when she settles down more). Her new dad loves her and said she completes his pack!

“Thank you so much for all that you have done and for rescuing Vita! We love her so much and the dogs are adjusting nicely to her. She is sweet, smart, fun, and snuggly! She loves the back yard, even though she gets covered in mud. I can't wait until we get some sun and everything dries up. Here's a few pics! We are still getting adjusted and taking it slow, but Dillon and Paulie have both cuddled up next to her once. I'll send pics of our 4 PRO dogs together once they get a little more adjusted.”

Piper was adopted by a family who adopted from us last year (Twix, pictured)! Piper is doing so well and has really blossomed in her new home!

Ozzy Pawsbourne (fka Zeke) made the news when his mom registered his name for his dog license! The Auditor site claims he's the only one with that name in all of Franklin County!

“Dear friends, today we are saying goodbye to our love Bentley. We've been together for only a short 1 1/2 years but we have loved him as if we'd been together since he was a pup. As Tim says, the old guy has run out of gas and it is now in our hands to keep him peaceful and pain free as we help him crossover. This is a gut-wrenching impossible decision. We are beyond grateful for the sunshine today. We would cherish your love, support and prayers for the three of us today. We have exchanged so many gifts and today we are praying we are giving him the biggest gift ever. Peace, calm, no pain, no trauma, surrounded by love on his way to a happy healthy reunion with Marley and all of our other family on the other side. I hope you'll join us in prayers as we wish him God's speed on his journey home.”

Mattie was adopted by an experienced pit owner, who likes to have “project dogs”! Mattie wasn't much of a project after leaving the program, but she did need to conquer some “stranger danger”. She's improving daily and loving her new human sisters!

Peach is loving her new family, which has 5 little kids for her to entertain with her goofy antics! Her new mom reports it was total chaos trying to get a family photo but they did the best they could! She spends most days staring out the window at squirrels as seen below.

Once Maisy Daisy was back home after prison, her foster mom just couldn't let her go! We weren't sure how she'd handle a revolving door of fosters, but so far, she's proven herself to be a great role model to other dogs! Knox (left) was her first foster brother and now Shorty is hanging out with her. Thanks to her prison training, she's been a wonderful addition to their family!

Colonel (now spelled Kernel) is doing really well in his new home! He loves hanging out with his canine brother Tanner. They are figuring out each other's play styles and limits, and they've had no issues so far! Kernel's parents have been so impressed with his training knowledge and are excited to continue teaching him new things!

Geoffrey's one year anniversary of his "Gotcha Day" was in March and his mom made sure to celebrate accordingly! She absolutely adores him and is so thankful for his prison training! He is very well-behaved, puts himself to bed in his crate every night, and manages to hang out on the couch all day unsupervised without getting into trouble!
