

PUPP NEWSLETTER

October 2022

As we approach the holiday weekend, we want you all to know how thankful we are to have your help training the rescue dogs! The training and socialization you provide to the dogs in your care sets our rescue apart from others and gives these dogs the best chance at a forever family. We hope you all have a Happy Thanksgiving!

Busta was the longest-running resident in the rescue, having arrived in mid-April, and he finally found his forever home recently! He's having fun with his new sister, Jazzy, and enjoyed Halloween in his adoptive home (right) before being adopted.

Joey is settling in well in her adoptive home and getting more and more comfortable each day.

Shade is doing great with her adopters, and they've already been to their follow-up training session. They said he's getting along well with their cat, and they just adore him!

"It's been 4 months and Winnie is THRIVING!!! Her personality has come into full play, and it is AMAZING! She is so goofy, silly, kind, and loving. She LOVES to snuggle, and I make sure to give her lots of hugs and pets throughout the day. We go on walks about 2-3 times a week and she's even been going to the dog park! She has met the other dogs in my family, and they love playing together... so we are so excited to spend some time at home over the holidays!! She has also been established with a groomer and vet, and is happy and healthy! Winnie has been such a blessing in my life. She greets me with the happiest smile and jumps and it makes the hardest of days 10 times better! She is truly the best dog ever, and I am so happy we ended up together."

Phoebe, now named Holly, is getting accustomed to her new home, and they love her! They are giving her the space she needs to blossom.

Our rescue participated in a Halloween event called Spooky Pooch in Old Worthington, where we showcased the rescue to hundreds of participants and offered photos of their dogs with a professional photographer. Below is a group of our volunteers and the PRO dogs who came to visit us at the event (clockwise from top right – Gemma, Zola, Joey, and Ziggy).

Sage's journey with us was nothing short of eventful. After being lost for two days in July and then biting her foster dad in September, we weren't sure we'd even be able to adopt her out. She went to an adoptive home in October, and within 24 hours, she slipped her leash and took off. Unfortunately, she was hit on the freeway and suffered a tragic spinal cord injury. She was humanely euthanized, but we're comforted by the happy four months she spent out of the puppy mill.

Zola is still hanging out in her foster home, awaiting her Prince Charming. She's been amazing in her crate and listens to her commands well. We hope we'll find a family for her soon!

2021 Graduate Orla, now Ora, is still as ornery as ever, and loves getting an occasional "pup cup" at Starbucks with her human brother!

Seth is still a giant goofball, but he's doing amazingly well with his adopters. They are sticking to his training, and it shows! He came to an event of ours earlier this month and was so well-behaved!

Hank is doing okay in his foster home. He loves his foster siblings but is terrified of any strangers that come into the home. We are hoping he'll warm up to people soon.

Justice is ALL puppy, but he's figuring things out on the outside. He's with his adoptive family now and they already took him to training. We'll have more updates on him next month!

Finn has been doing so well since he got back home! He is attached to his new mom like glue and loves his canine brother. They are still learning his commands and how to incorporate his training into their daily lives, but he's thriving already!

Barbara is doing awesome in her adoptive home! They said she's even teaching the little dog a few things! They love her and are so thrilled with her training.
