

PUPP NEWSLETTER

April – June 2023

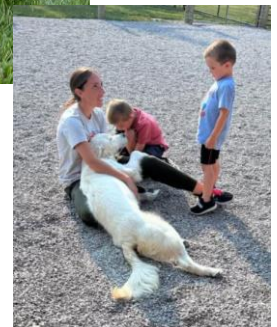

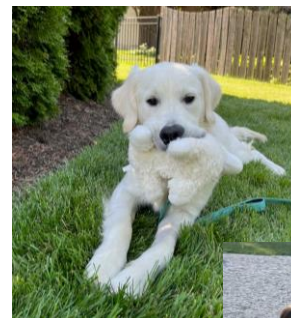

The past few months have been largely filled with transition items as we move much of the rescue's work to the new Board. Mitch has taken over daily management of the prison program and is knocking it out of the park! We appreciate your patience and understanding while we work through these changes, and we look forward to getting back on track with the second half of the year!

Daffy and Tulip are inseparable and doing very well in their adoptive home! We appreciate you all advocating for them and knowing that they would be best if they stayed together. They are quite the bonded pair!

Philip is doing wonderfully in his adoptive home already! He's very gentle with the kids and his new parents absolutely adore him

Chaz is doing fairly well in his adoptive home, and they have already been to a few follow-up training sessions with him to learn how to handle him better. He is working through some resource guarding with the help of the trainer, and the family is committed to making it work!

Limerick joined a couple of other Portuguese Water Dogs in her adoptive home and fits right in! She even has a couple of canine cousins who come to visit regularly!

Bane is living his best life in South Florida, where he gets to go to his very own beach house every weekend! It took 7 drivers to get him from Columbus to Savannah, where he met his new family, who drove him the rest of the way. It was quite an undertaking for all involved, but we couldn't be more thrilled with the result! Bane finally found his forever home after way too long in the rescue!

Wilma also found her forever family, who ended up doing a DNA test on her! We're all shocked at the results, but they still love her regardless!

Breed Summary

Breed ID Test

Wilma

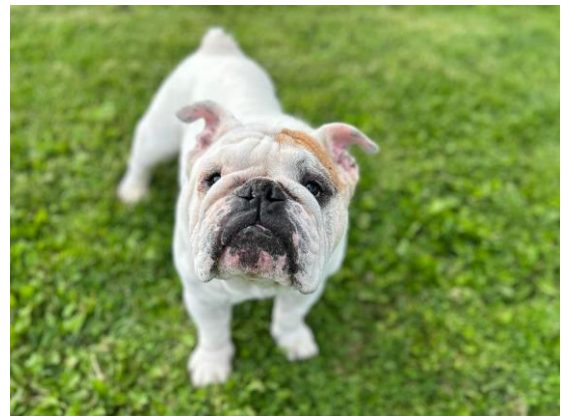

Mixed Breed

50.0% Rottweiler

26.6% Great Pyrenees

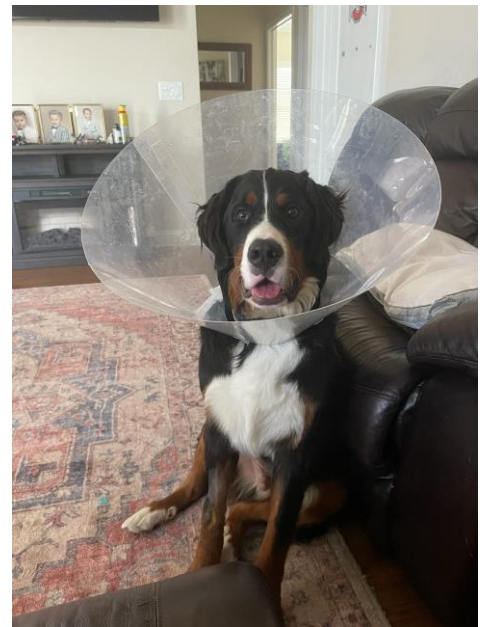

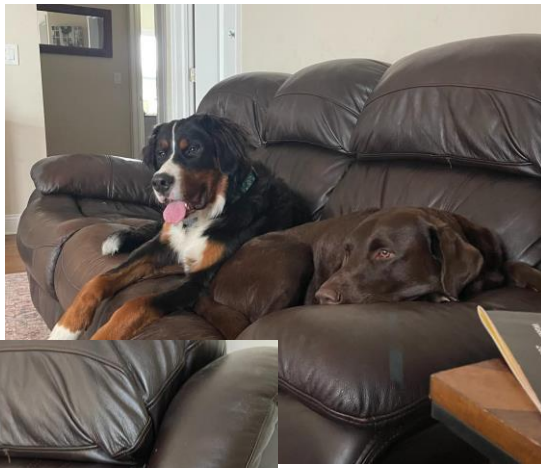

14.8% Poodle (Standard)

8.6% Labrador Retriever

Gus' before and after is quite the "glow up". He arrived at the shelter with his sister Piper, who passed away after complications from her palette surgery. We're thankful Gus is healthy and hope he'll be adopted soon!

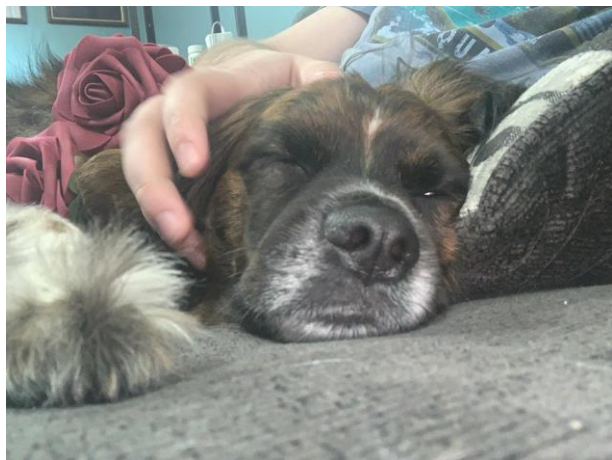

Ben is settling into his adoptive home, but he gave his new family quite the scare when he swallowed a mop head. He recovered well from the surgery to remove it and is enjoying life with his canine siblings!

Frannie joins a few other PRO alum in her adoptive home, including Toast (fka Moxie) and Butter. Her new parents have lost a couple of their senior dogs lately, so Frannie is helping to heal their hearts with her goofy personality and professional snuggles. She's getting along great with all of the dogs in the home and especially loves her human sister!

2019 PUPP Alum Chap is still doing great with his adoptive family, but he's scared of the fireworks. This is a photo of him waiting out the 4th of July fireworks. Poor pup!

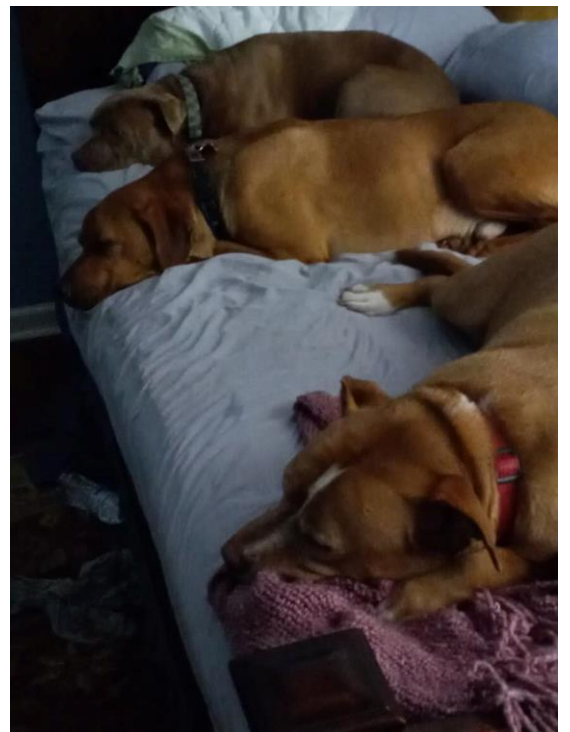

Bentley is doing great in his adoptive home and his dad loves to dote on him! He says he's a pretty easy dog but is struggling with his husbandry skills at the vet. Hopefully he'll get over that with more practice!

Burley (fka Bentley) received a certificate for his basic manners, which his parents attended so that they could learn how to handle him better. He did wonderfully and now they are more confident walking him!

Joby is loving life as the king of the house! He's an only dog now, but has a couple of neighbor dog friends and family member dogs that come over for playdates occasionally. He likes to join his dad for car rides too!

DRUMROLL PLEASE! Hank got adopted!!!
Hank found a great family in Kentucky, and he gets along great with their other dogs. They said he settled in almost immediately! We're so happy for him!

2020 PUPP Alum, Geoffrey, is still a firecracker! He's got a huge personality packed into his tiny body, but his mom loves him dearly! He's definitely spoiled rotten! He recently had a photo shoot with Ash & Alder Photography and the photos turned out so well (below)!

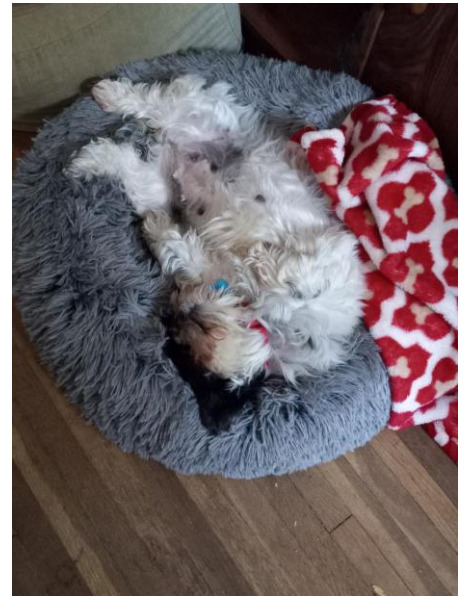

Chase is fully recovered from his knee surgery and giving his sister Carmen a run for her money! They are thick as thieves most days!

Just this week, we found out that Penny's foster family would like to adopt her! They already have 2022 PUPP Alum Colonel (now Monty), so Penny fit right in! You can barely tell them apart! Penny also received positive reviews at her check-up and the vet believes she's finished with the heartworm treatment!

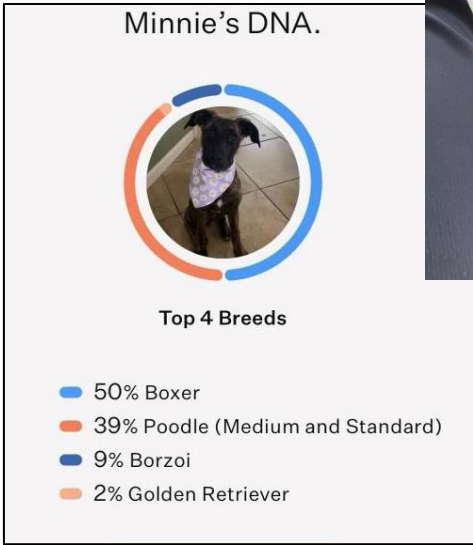

Tobin is fitting in nicely with his adoptive family! They don't have any other pets so he's ruling the roost and VERY content with that status!

Erin is making herself right at home with her new mom and canine brother Ned. She said they get along great and Erin's really coming out of her shell! We hope to have more photos to share soon.

Lillian, now Minnie, has grown quite a bit since being in the program! She's now 45 lbs and the same size as her pittie sister! Her mom got her DNA test done to prove she's a full sister to Benson and Wheezie, which shocked us all. All three of them are all legs!

This is her sister Wheezie!
