

PUPP NEWSLETTER

September 2022

Thank you for all of your hard work so far this year and for your commitment to our dogs! We are excited about what's in store for the program in the coming months and hope you all are too! Please continue to communicate with us about supply needs and suggestions for improvement. We appreciate having your input!

Snoop finally got adopted! This handsome lug sure took his time, but he finally found the family of his dreams, with sister Mattie (PUPP Graduate). He's living in Bexley as a registered pitbull and ready to change hearts and minds about breed stereotypes!

Zola's first attempt at adoption went south, but she's enjoying being back with her original foster family and foster sister, Gemma!

2019 PUPP Graduate Charlie just celebrated his 4th birthday! He's doing great and his family loves him!

Ashley finalized her adoption of Brogan at our Tractor Supply event in September, where they passed out gift bags to our adopters! He's doing well with her and getting the hang of being a foster brother to the revolving door of dogs that come through her house!

Yoshi struggled to warm up to new people, especially men, when she left prison, but it only took her a few days to realize she could get the best treats and belly rubs from her new dad. Her new mom is smitten and loves her to pieces! Yoshi went through her follow-up training already and is reportedly settling in very well! We're so happy for this sweet girl!

Gizmo got professional photos done when he left the program and was almost adopted by the photographer! He's on a trial adoption with a great family now and we expect the adoption to be finalized any day!

Ricki joined a house full of dogs and kids, and she couldn't be happier! She gets a ton of love and attention from everyone in the home, and they say she fits right in, like she's been there forever! We are so thankful they took a chance on this quirky pup and opened their hearts to her!

Sage is currently being assessed to determine next steps for her, and we're hopeful to find an adopter that will be patient with her. She has come a long way from her puppy mill days, but she still has a ways to go. Keep your fingers cross for her that we can figure this out!

Seth is settling in well in his foster home! He did test positive for Lyme at his follow-up visit, so we're waiting on more test results before figuring out a treatment plan. He should be all clear in no time!

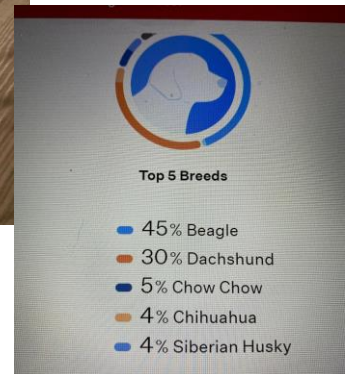

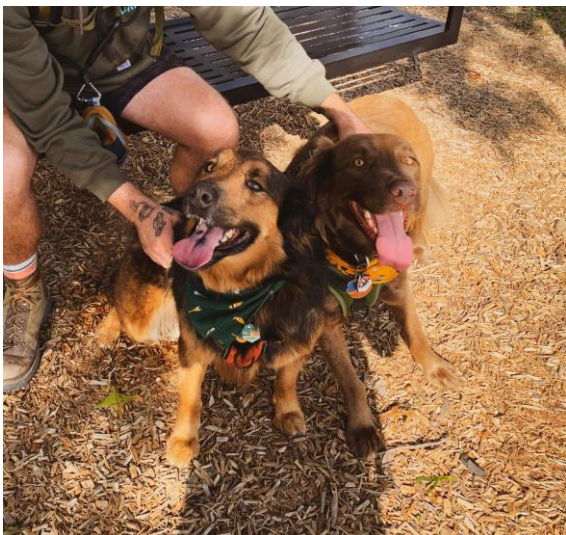

Screech's dad built this amazing Adirondack dog chair for us to raffle off for the rescue! We are hoping the proceeds will cover some of the expensive surgeries we've had lately!

Leroy is getting a ton of exercise with his new brother, Eli! They run around the yard constantly and he's really loving toys/balls now. His parents are absolutely in love!

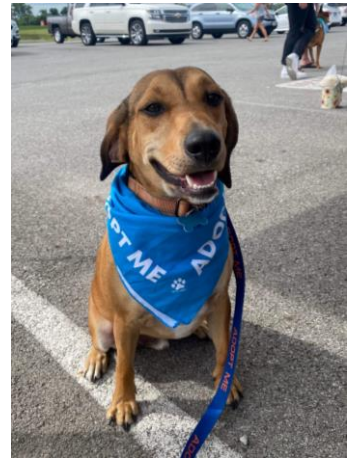

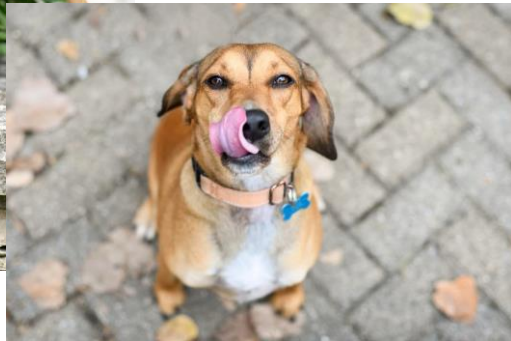

2021 PUPP Graduate Gunner (right) is doing so well and loves hiking with his new brother and parents! He definitely found the perfect fit!

Jesse (fka Manny) had his DNA test done and surprisingly had no Basset hound in him! He's just a potato-shaped beagle and his parents love him anyway!

Busta has been making the rounds, while we try to find his perfect match. He got professional photos done last month and has been attending our events, but nothing has shaken loose yet. We moved him to a new foster home a couple weeks ago and he has a young pitbull to play with, which seems to be helping! He loves it there!

One of our longtime volunteers, Patty, passed away last month. She did several transports to/from the prison, including dogs like Farris (pictured with her) and Nellie (choc lab mama). Her family included our rescue in her obituary, and we've been the recipient of several memorial donations. In her memory, we decided to pull this senior pup from Ross County, who needs significant medical care. She will likely need knee surgery, tumors removed, and a dental cleaning, so we're thankful for the additional donations. We've also named her Patty!
